

Unicorns R Real DIY Sugar Scrub

Ingredients

- ♥ 8 oz. White Granulated Sugar
- ♥ 2 oz. Sweet Almond Oil
- ♥ 0.8 oz. Shea Butter
- ♥ 0.4 oz. Aloe Vera Oil
- ♥ 0.2 oz. Jojoba Oil
- ♥ 1/4 tsp each Blue, Red Orange & Yellow Mica Colorant
- ♥ 1/4 tsp Shimmer White Mica Colorant
- ♥ 2.5 mL Cotton Candy FO
- ♥ 0.6 mL Vitamin E Oil (optional)

This recipe makes about 8 ounces.

Directions:

1. In a double boiler, heat shea butter on low until melted. Add sweet almond, aloe vera, and jojoba oils. Whisk the mixture as it cools until blended.
2. To the sugar, add the mica colorants. Stir well to fully incorporate the colors.
3. Add fragrance oil and vitamin E oil (if using) to cooled butter/oils mixture. Once again, stir well to combine.
4. Pour melted butter/oils over sugar mixture, stirring well to fully combine the ingredients.
5. Store your scrub in a sealed container and finish with a sprinkle of gold glitter on top!

How To Use:

Apply a few scoops onto wet skin and gently massage in a circular motion. Rinse off with warm water.

This sugar scrub recipe is great as a body scrub but may be a little too abrasive as a face scrub.

Note: *This is an oil scrub and will be slippery when used in the tub or shower.*

Vitamin E oil's antioxidative properties act as a preservative, but you can also add 6 drops of grape seed extract to act as an additional preservative in this scrub.
